## Florida Hemp Grower's Guide

(303) 962-8250

[Info@blueforestfarms.com](mailto:Info@blueforestfarms.com)

[www.blueforestfarms.com](http://www.blueforestfarms.com)

## 1. Know Your Seed

According to Section 581.217 (6), Florida Statutes, a licensee may only use the following kinds of hemp seed:

- Seed certified by a certifying agency as defined in s. 578.011(8), F.S. Certified seed will be labeled with a seal stating the name of the certifying agency and a certification number.
- Seeds approved by a university or institution conducting an Industrial Hemp Pilot Project. Labels will bear the statement "Pilot Project Hemp Seed" and identify the university or institution that granted approval.

Florida's official announcement can be found by [clicking here](#).

## 2. Secure Your Genetics

Blue Forest Farms seed meets the requirements defined by s. 581.217 (6), F.S. As noted above, all licensees must only use hemp seeds and cultivars certified by a certifying agency or university conducting a pilot program pursuant to s. 1004.4473, F.S.

Blue Forest Farms seed is tested by an AOSCA certified lab, meaning it is AOSCA certified and therefore compliant with Florida State's rules and regulations.

Test Results on our hemp strains from Colorado State University (an AOSCA certifying agency) can be found by clicking below:

[Cherry Blossom Strain Test.](#)

[Hot Blonde Strain Test.](#)

[Queen Dream Strain Test.](#)

**More information about Florida seed requirements can be found here.**

## 3. Complete Your Registration Documents

Check out the checklist on the next page to help you quickly and correctly apply for a license.

## Applying for a Florida State Hemp License

Florida's official checklist can be found by [clicking here](#).

### 1. Make Sure You Learn the Rules

Licensed cultivators have ongoing responsibilities, like reporting crop harvests, maintaining environmental containment, and submitting samples for THC testing. Know the rules and make sure you will be able to comply with them once you get your license. The Hemp Cultivation rule can be found here: [\(5B-57.014\)](#).

### 2. Plan Ahead

To ensure success, start to think about where you'll get your seeds and cultivars, who you'll sell your crop to, and what kind of operation you'll have. Think about what purpose you'll be growing for and plan accordingly. If you are interested in selling hemp nursery plants, you will need to register as a nursery. To do so, contact the Division of Plant Industry (DPI) at 888-397-1517.

### 3. Background Check and Fingerprints

Applicants must complete a background check as part of the hemp cultivation permitting process. To complete a background check you must have the ORI Number that the Florida Department of Law Enforcement has assigned to FDACS: **FL925080Z**

The ORI number must be used at the Livescan service providers that complete the finger printing and submission process.

- [List of Livescan Service Providers](#)
- [Locate a Livescan Service Provider Near You](#)

### 4. Create Your Account

Hemp cultivation applications can be submitted online through the portal located at:

<https://www.f-dacs.gov/Cannabis-Hemp/Hemp-CBD-in-Florida>.

Make sure you have a valid email address validate to user profile.

### 5. Prepare an Environmental Containment and Transportation Plan

As part of the application you will need to submit an environmental containment plan for each cultivation location. Florida state's guidance on Containment and Transportation plans can be found [here](#) and a Sample Plan can be found [here](#).

## 6. Submit Your Application

Make sure all information is all accurate and the application is complete to avoid processing delays. Applicants may obtain property classification and property tax parcel information from the [Florida department of Revenue website](#).

## 7. Save Your Confirmation Email

DPI will send you a confirmation email once your application is submitted.

## 8. Be on the Look Out for Communication from FDACS

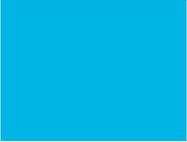

If any further information is needed or if there are any issues with your application, you will be notified. If the application is complete and no other information is needed, you will receive an email with your license to cultivate hemp.

## 9. Save Your Application and License

You may need to present your license or license number to seed dealers, nurseries, and government throughout the cultivation process.

## 10. Remember the Rules

Make sure you continue to comply with all state rules and regulations regarding signage, reporting harvest dates, and submitting samples for THC testing, among other ongoing responsibilities.

Colorado Seed Laboratory

Colorado State University

4616 NE Frontage Road

Fort Collins Co 80524

To Whom it may concern,

The tests performed by the Colorado Seed Laboratory are done in accordance with the AOSA Rules for Testing Seeds for any species which rules are available. This includes hemp seeds. As a member in good standing of the AOSA, the Colorado Seed Lab has always at least one employee on its staff with purity and germination certification. The manager, Randy Crowl, is a Certified Seed Analyst and is also a member of the SCST as a Registered Seed Technologist.

The Colorado Seed Lab participates in the seed certification program with the Colorado Growers Association and performs regulatory tests for the Colorado Department of Agriculture.

For any other information about the services provided by the Colorado Seed Laboratory, the lab can be reached at:

**970-491-6406****Email: [CAS\\_SeedLab@mail.ColoState.edu](mailto:CAS_SeedLab@mail.ColoState.edu)**

Thank you,

**Randy Crowl**

## Florida Announcements

# Notice to Growers Regarding Hemp Seed

Thank you for participating in the Florida Hemp program.

A licensee may only use the following kinds of Hemp Seed, pursuant to Section 581.217(6), Florida Statutes:

1. Seed certified by a certifying agency as defined in s. 578.011(8), F.S. Certified Seed will be labeled with a seal stating the name of the Certifying Agency and a certification number.
2. Seeds approved by a university or institution conducting an Industrial Hemp Pilot Project. Labels will bear the statement "Pilot Project Hemp Seed" and identify the university or institution that granted approval.

For more information, Please visit <https://www.fdacs.gov/Cannabis-Hemp> or contact us at [cannabis@FDACS.gov](mailto:cannabis@FDACS.gov).

# STATE OF FLORIDA HEMP PROGRAM

## 2020 Applicant Checklist

Thank you for your interest in the Florida State Hemp Program! The Florida Department of Agriculture and Consumer Services (FDACS) has developed a user-friendly online application and encourages you to apply for a license by visiting [www.FDACS.gov/hemp](http://www.FDACS.gov/hemp).

The steps recommended below will help you quickly and correctly apply for a license.

Throughout the cultivation process, timely communication is crucial to maintain compliance with state and federal hemp cultivation laws. Please ensure your contact information is accurate and up to date. If you have any questions please contact the Division of Plant Industry (DPI) helpline at 888-397-1517 or by email at [DPIHemp@FDACS.gov](mailto:DPIHemp@FDACS.gov).

### Applying for a License:

**Know the rules.** Licensed cultivators have certain ongoing responsibilities, like reporting crop harvests, maintaining environmental containment, and submitting samples for THC testing. Know the rules and make sure you will be able to comply with them once you get your license. The Hemp Cultivation rule can be found here: ([5B-57.014](#)).

**Put together a plan.** It's never too early to start thinking about where you'll get your seeds or cultivars, who you will sell your crop to, and what kind of operation you want to have. For example, are you going to grow hemp for oil, fiber, or hemp nursery plants? If you're interested in selling hemp nursery plants, you will need to register as a nursery, as well. You can do this by contacting DPI at 888-397-1517.

**Submit fingerprints.** Submit a full set of fingerprints to a [Livescan](#) service provider evaluated by the Florida Department of Law Enforcement for the Responsible person and any Control person(s).

**Create an account.** You can submit your Hemp Cultivation Application through our online portal located at [www.FDACS.gov/hemp](http://www.FDACS.gov/hemp). A valid email address will be required to validate the user profile.

**Prepare an environmental containment plan.** As part of the application process, you will need to submit an environmental containment plan for each cultivation location. For your convenience, a sample environmental containment plan has been prepared and can be found at [www.FDACS.gov/hemp](http://www.FDACS.gov/hemp).

**Submit your application.** Make sure the application is complete and that all the information included is accurate and correct to avoid processing delays. Applicants may obtain property classification and property tax parcel number information from the Florida Department of Revenue [website](#).

**Save your confirmation email.** Once you have successfully submitted your application, you will receive a confirmation email from DPI.

**Look for communications from FDACS.** Once you submit, our team will start reviewing the application. If the application is complete and no further information is needed, you will receive an email with your License to Cultivate Hemp. We will notify you if any additional information is needed or if there are any issues with the application.

**Save your application.** Throughout the cultivation process, you may need to present your license or license number to seed dealers, nurseries, and government officials.

**Know the rules.** You're a licensed Hemp grower in the State of Florida. With that license comes certain ongoing responsibilities, like posting signage, reporting your anticipate harvest dates, and submitting samples for THC testing. Make sure you know and continue to comply with those requirements.
